

It immediately changed the way I feel about my skin – 78%  
 Skin looks instantly younger – 77%  
 Dramatically improves skin's appearance – 87%  
 Visibly improves the look of fine lines – 79%  
 Significantly shrinks the look of pores – 82%

**In an independent consumer study, women used the microdermabrasion plus set 2-3 times over the course of 7 days.**

## results

The Pore Minimizer nourishing serum helps calm and comfort skin. It's the perfect after-step to Microdermabrasion Refine to reduce any appearance of redness and soothe delicate skin. Working together 2-to-3 times a week, both products dramatically improve skin texture for a high-definition-worthy complexion.

*Microdermabrasion Refine* is a physical exfoliator that reduces the appearance of fine lines and gently refines skin's texture as it removes surface dead skin cells and build-up from pores. It contains Alumina--the same ingredient used in spa-grade microdermabrasion treatments! Pore Minimizer goes beyond skin texture to tighten the look of pores. With pores cleared or build-up and dead skin cells, Pore Minimizer works immediately to reduce their appearance. And the results get better over time.

## benefits

*step one: refine*

After cleansing, leave face wet. Dispense a dime-sized amount of *Microdermabrasion Refine* to fingertips and rub in circles to gently massage over the face, avoiding eyes and lips. Rinse thoroughly with warm water and pat dry

*step two: minimize*

Apply 1-2 pumps of Pore Minimizer to fingertips and massage into face. Follow with the remainder of your skincare routine.

Note: It is recommended to add the *Microdermabrasion Refine* only 2 to 3 times per week to avoid over-exfoliation. However, the Pore Minimizer serum may be used every day, morning and night, to help minimize the appearance of pores. Also, it is recommended that you NOT cleanse using the SkinVigorate cleansing brush in the same routine as a microdermabrasion treatment.

## the science behind the product

Congested pores can lead to stretching of the pore wall, making them look enlarged. Eliminating impurities trapped within is an important first step toward improving their appearance. Spa-grade Alumina crystals gently buff away dull skin.

Persian silk tree bark extract and soy bean extract in Pore Minimizer are shown to support factors important to skin, which may help tighten the look of skin overall and around pores.

Skin calming and comforting benefits on skin's surface provided by Pore Minimizer are assisted by sea whip extract and evodia fruit extract. These two ingredients have been shown to support signals associated with skin calming and comfort
