Just as vitamins are important to your health, vitamin C is important for helping skin fight the multiple signs of aging. And since the body can't produce vitamin C on its own or store it for long periods of time, it needs to be replenished on a regular basis. This powerhouse vitamin is known to help skin look more radiant and even-toned, but it also plays a role in supporting natural collagen and elastin to help reduce the appearance of fine lines and wrinkles. In addition, vitamin C is an antioxidant that helps guard against the harmful effects of environmental free radicals.

Step One: Cleanse
 At night, cleanse your face with your favorite cleanser (it is recommended to use at night because it should not be used with sunscreen)

Step Two: Unwrap the Square
 Peel open the foil packet to reveal the transparent square. Place it in the palm of your hand.

Step Three: Add water
 It doesn't take much!! Add just 3-4 drops of water. Using the finger of your other hand, rub the square and water until it is fully dissolved.

Step Four: Activate & Apply
 Activate with a pump of your preferred serum* and mix together. Spread evenly over your face and allow to dry.

Step Five: Finish your Routine
 * Do not mix with serums containing acne ingredients such as the Pore Purifying Serum
